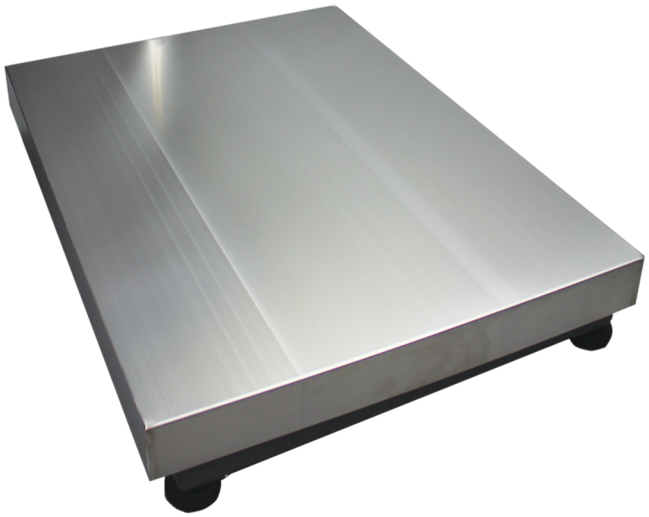
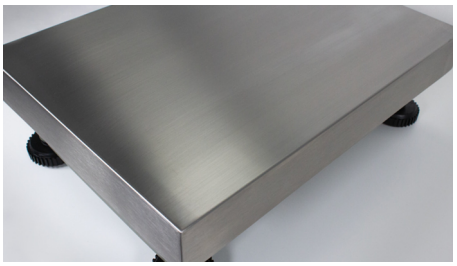
GB Platforms



Featuring a removable stainless steel pan, GB platform scale offers a durable solution for industrial applications such as weighing, parts counting, percentage weighing and comparative weighing. GB works well as an auxiliary platform in tandem with Adam's CBD bench counting scale. The GB performs with a number of indicators and is available in a range of capacities and platform sizes. The GB is well-suited for shipping and receiving, batching items for processing, and stock and warehouse auditing. Features include single-point precision load cell technology and overload protection.

Compatible with a variety of indicators, the GB delivers remarkable durability



Features

- Rugged construction stands up to industrial use
- Can be used with any Adam indicators
- Overload protection helps prevent damage to internal components
- Stainless steel platform for added durability
- Single point load cell and mild steel base is solid for industrial applications
- Easily connect to Adam's CBD counting scale for dual counting operations

Applications

- Weighing

Adam is the answer.

For more than half a century, Adam has been the answer when accuracy is the priority. Adam scales and balances provide precision solutions for professionals in every industry.
