AGB & AGF Bench and Floor Scales

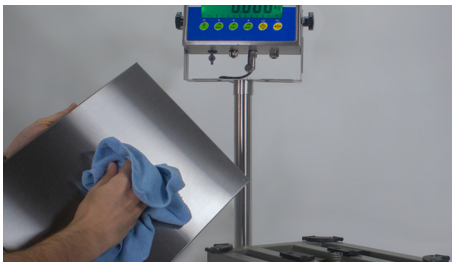

Ideal for industrial settings, AGB and AGF bench and floor scales feature a stainless steel indicator and sturdy construction, and are available in three platform sizes and a wide selection of capacities. Accomplish weighing and counting tasks quickly, as results are readily visible on the backlit LCD, which offers 40mm-high-digits. For maximum efficiency, a tactile keypad offers smooth operation. With an internal rechargeable battery, the AGB/AGF can be used in locations where power is unavailable. Swiftly transmit results to computers or printers using the RS-232 interface. The scales feature external calibration, so verification and adjustments can be performed using weights.

Backlit LCD with sizeable digits means results are easy to read, speeding up weighing tasks
