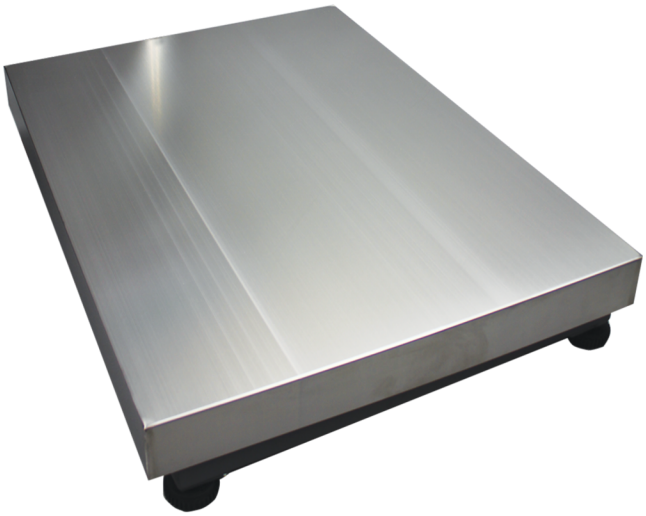
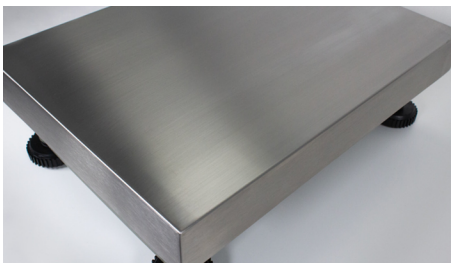
GB Platforms



Featuring a removable stainless steel pan, GB platform scale offers a durable solution for industrial applications such as weighing, parts counting, percentage weighing and comparative weighing. GB works well as an auxiliary platform in tandem with Adam's CBD bench counting scale. The GB performs with a number of indicators and is available in a range of capacities and platform sizes. The GB is well-suited for shipping and receiving, batching items for processing, and stock and warehouse auditing. Features include single-point precision load cell technology and overload protection.

A bench top weighing solution that works with an array of indicators



Features

- Rugged construction stands up to industrial use
- Can be used with any Adam indicators
- Overload protection helps prevent damage to internal components
- A 5-year warranty means quality assured for years of use.

Applications

- Weighing

Adam is the answer.

For more than half a century, Adam has been the answer when accuracy is the priority. Adam scales and balances provide precision solutions for professionals in every industry.
