

GF platform scales feature solid construction and a removable stainless steel pan, bringing long-lasting durability to industrial applications such as weighing, parts counting, percentage weighing and comparative weighing. When measuring large quantities, GF works well as an auxiliary platform in tandem with Adam's CBD bench counting scale. The GF is compatible with a number of indicators and is available in a range of capacities and platform sizes.

Compatible with a variety of indicators, the GF delivers remarkable durability

Features

- Rugged construction stands up to industrial use
- Can be used with any Adam indicators
- Overload protection helps prevent damage to internal components

Applications

- Weighing

Adam is the answer.

For more than half a century, Adam has been the answer when accuracy is the priority. Adam scales and balances provide precision solutions for professionals in every industry.
